- Thursday, 15th: Daddy-daughter Dance
- Friday 16th-Monday 19th: NO SCHOOL

CURRICULUM

ELA: Students will be finishing Bud, Not Buddy and taking the final quiz. Students will also complete a summary of the mystery elements in the book, and begin reading a new mystery in small groups. Final drafts for the mystery writing piece are due on the 8th. Finally, they will choose a topic for their research paper and begin working on their outlines.

Science: Students will learn about the design process engineers use to solve real world problems. They will test materials for heat transfer, then use the data to design and build a penguin house that will reduce heat transfer. Students will test their house, then use what they learn to improve upon their design.

Social Studies: Students will finish learning about India, and have a test Friday, February 9th. Next, students will be learning about the physical geography and early history of Africa. They will learn about Ancient Egypt, pyramids, and pharaohs. There will be quizzes for each section covered in the text.
